## Word Scramble...

ransumat erfig = Sumatran Tiger || doniniaes = Indonesia || kerssihw = Whiskers  
 redendange = Endangered || datpreor = Predator || rethun = Hunter || frspies = Stripes

## Hey Kids!

Hamilton Zoo is home to four Sumatran tigers. our boy oz (15 years old) and our girls Mencari (20 years old), Sali (12 years old) and Kirana (5 years old) - she is oz and Sali's daughter. Want to find out more about these gorgeous animals? Head to a Keeper Talk (check the back of the map for times).

# Sumatran Tiger

## Draw me...

colour in or draw your own

Draw a rectangle for the body, long semicircle for a head and four lines for legs.

Add two small semicircles for the ears. A curved line for the tail.

Draw small circles for eyes and a line with a dot for the nose. Dress your tiger with stripes - use triangles.

## Tongue Twister...

A tidy tiger tied a tighter tie to tidy her tiny tail.

## Word Scramble...

All of these words below have something to do with tigers. See if you can unscramble them to work out what they are.

ransumat erfig - doniniaes - kerssihw - redendange  
 datpreor - rethun - frspies

## Are you a fur-ocious feline?

Take the quiz and see how much you know about this top predator.

1. Adult tigers generally live.....?

- A) In a pride
- B) With a mate
- C) Alone

2. Which feature makes wild tigers strong swimmers?

- A) Flat tails
- B) Webbed feet
- C) Glands in their paws

3. Tiger stripe patterns are unique to each individual tiger.

- A) True
- B) False

- A) About 300
- B) About 3,000
- C) About 3 million

5. How many tigers live at Hamilton Zoo?

- A) 7
- B) 6
- C) 4

## Creature Features...

### 1. STRIPES

Can you spot a tiger? Their narrow stripes provide fantastic camouflage. Like our fingerprints, no two tigers have the same pattern of stripes.

### 2. EARS

Sumatran tigers can hear very well. Can you see the spot on the back of their ears? It's to trick animals behind them into thinking that the tiger is looking at them. Can you guess why?

### 3. EYES

Tigers see much like humans during the day but far better than us at night.

### 4. TONGUE

Look at the tiger's big tongue. It's rough like sandpaper and it comes in handy for grooming and for stripping meat off bones. YUM!

### 5. TEETH

Can you see the tiger's four huge fangs? They look very different from their other teeth. Their canines are the longest of all living cats.

### 6. WHISKERS

Very long and effective when moving through undergrowth. They are used as feelers to help tigers move through twigs and branches in the dark.

### 6. LEGS AND CLAWS

Tigers need strong legs and long sharp retractable claws for catching and holding prey. Sumatran tigers are excellent swimmers and have webbed paws to help them swim fast.
