

Match the animal to their home

HAMILTON
ZOO

at Te Kaaroro
Nature Precinct

Home

Cave

Pond

Under a log

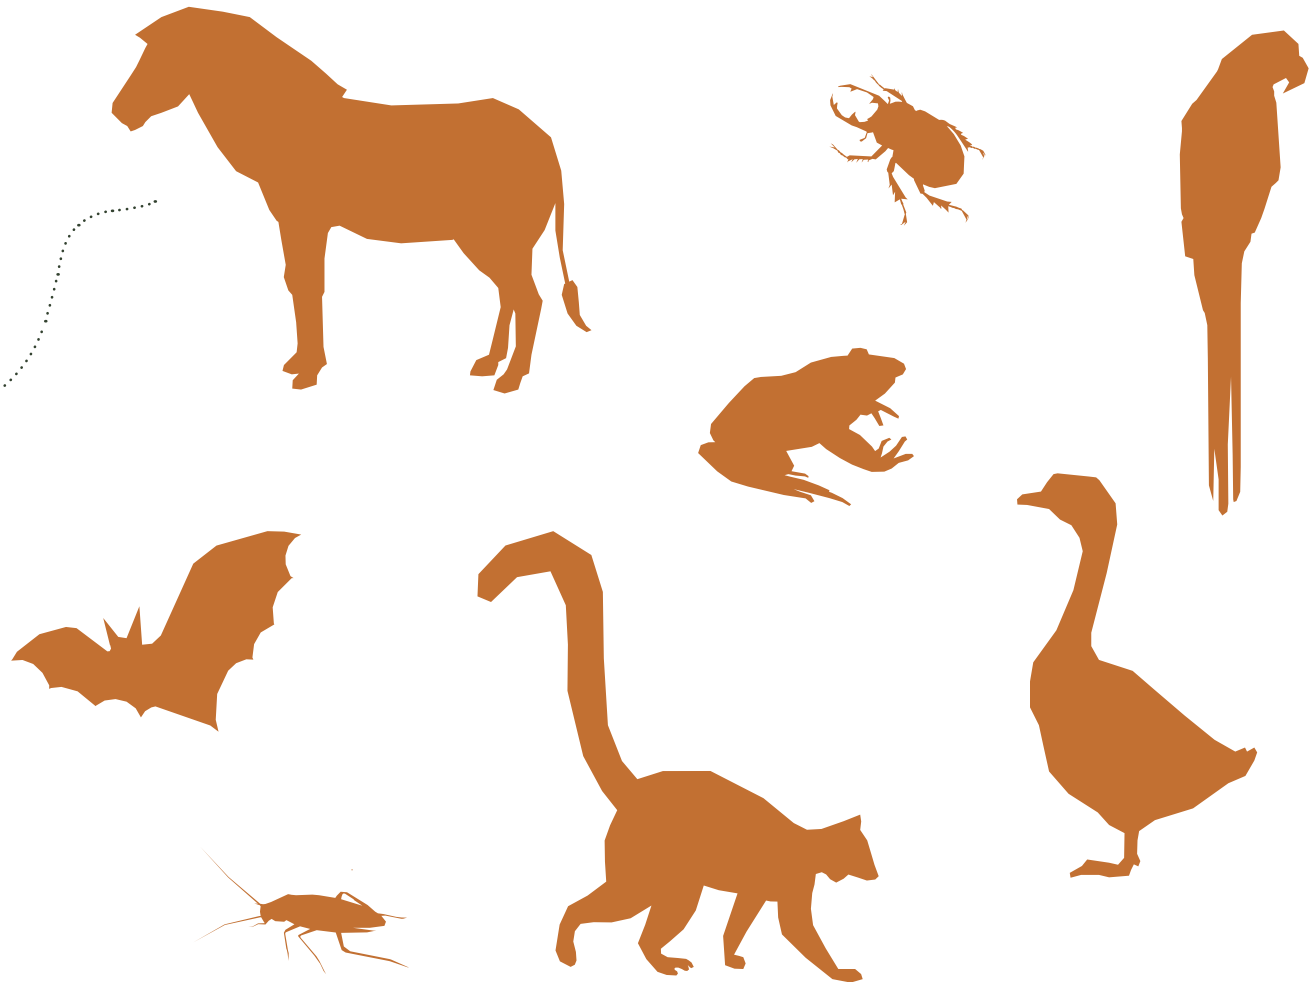

Savanna

Hole in a tree

River

Mountain

Rainforest

What lives around you?

Take a look around your backyard/school grounds/Waiwhakareke

 Write and draw some things that you found that are:

Something non-living

A plant with green leaves

A plant with flowers

Something that likes water

A bug that flies

A bug that crawls

Something with fur

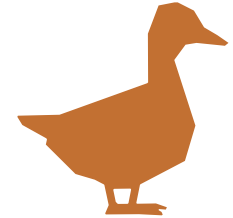

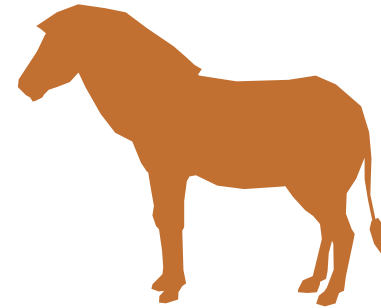

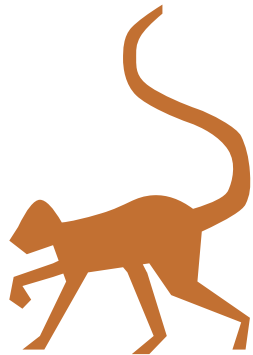

Something warm-blooded

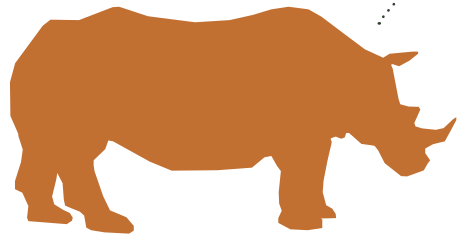

Different types of habitats

Draw a line from each animal to the kind of habitat it inhabits

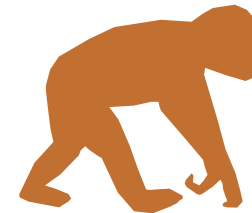

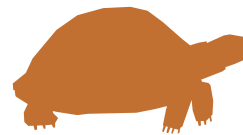

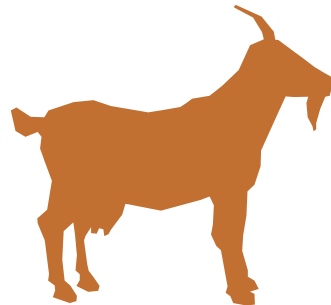

Terrestrial

Arboreal

Aquatic

Draw the animal

Draw one of our zoo animals that fit in each of these habitats

Hint: Think about what you saw at the zoo and where it was.

Savanna

Rainforest

New Zealand Wetlands

Farmyard

Draw the habitat

Draw an appropriate habitat for each of these animals

 **Hint: They might live in the desert, near water, in the snow or a forest.**
